PROFESSIONAL SUMMARY

Cloud & DevOps Engineer with 4+ years of production experience in digital banking, AI infrastructure, and application delivery. Experience operating Kubernetes clusters spanning 150+ nodes, designing primary and disaster-recovery infrastructure, and automating mobile, web, and backend releases. Core strengths include AWS, Azure, CI/CD, infrastructure as code, Linux, and observability.

TECHNICAL SKILLS

Cloud: AWS, Azure, GCP; EC2, ECS, RDS, IAM, Route 53, CloudFront, Lambda; AKS, App Service, virtual machines

Containers: Kubernetes, EKS, AKS, GKE, Docker, Docker Swarm, container registries

Delivery & automation: Jenkins, Bitbucket Pipelines, Git, Terraform, Ansible, AWS CDK, CloudFormation

Operations: Linux, Windows Server, networking, disaster recovery, Grafana, ELK/EFK, centralized logging

Scripting & quality: Bash, PowerShell, Batch, Python, SonarQube, Playwright

Data services: MongoDB, Redis

PROFESSIONAL EXPERIENCE

Bank AL Habib Limited | DevOps Engineer

Karachi, Pakistan | May 2025 - Present

- Design and operate primary and disaster-recovery infrastructure to support high availability and dependable digital banking services.
- Optimized Kubernetes resources and application infrastructure during the transition from the legacy banking app to AL Habib Digital, improving backend responsiveness and supporting smoother banking operations.
- Operate Azure infrastructure for the DigiMate AI assistant, including AKS, App Service, virtual machines, registries, MongoDB, and Redis.
- Implemented automated deployment pipelines, reducing manual release steps and deployment time; configure EFK logging and Grafana monitoring for production troubleshooting.

TekRevol | DevOps Engineer

Karachi, Pakistan | May 2024 - May 2025

- Managed multiple AWS production accounts using IAM roles and least-privilege access.
- Built Jenkins and Bitbucket pipelines for Android, iOS, web, and backend applications, automating builds, tests, and deployments.
- Replaced manual delivery steps with Docker staging environments and Ansible deployments; integrated SonarQube checks into release workflows.
- Automated AWS releases and hotfix delivery for customer-facing workloads, including Rise Up Kings.

PROFESSIONAL EXPERIENCE (CONTINUED)

Teresol Pvt. Ltd. | DevOps Engineer

Karachi, Pakistan | Aug 2023 - May 2024

- Operated multiple Kubernetes clusters spanning 150+ nodes at Teresol, a vendor supporting Bank AL Habib, handling application deployments and production troubleshooting.
- Deployed and maintained Docker Swarm applications and automated microservice deployments with Ansible.
- Investigated incidents using ELK/EFK logs and monitored workload and deployment health with Grafana.

Q-Solutions | DevOps Engineer

Karachi, Pakistan | Mar 2023 - Aug 2023

- Built Jenkins CI/CD pipelines, automated deployments with Ansible, and integrated SonarQube and Playwright checks.
- Managed Linux and Windows servers; deployed Node.js, Next.js, and .NET applications on AWS EC2 and IIS.
- Managed EC2, RDS, Route 53, and CloudFront resources and contributed to infrastructure automation with AWS CDK.
- Developed a Python bot for Jenkins build notifications and troubleshot deployment and infrastructure failures.

TrioTech Systems | Automation Engineer

Karachi, Pakistan (Remote) | Feb 2022 - Mar 2023

- Built Jenkins pipelines to automate delivery from source control to servers and AWS environments.
- Automated AWS provisioning with CloudFormation and AWS CDK, and cross-platform operations with Bash, Batch, and PowerShell.
- Automated .NET builds, NuGet dependency restoration, Docker image creation, and Amazon ECS deployments.
- Configured load balancers, target groups, security groups, and subnets; investigated pipeline failures and documented delivery procedures.

SELECTED PROJECT

OneView | Investment Tracking App & Website

oneviewportfolio.com | Independent product

- Built and launched an investment-tracking app and product website covering stocks, mutual funds, and pension investments.
- Implemented on-device statement import, portfolio tracking, private local storage, biometric protection, backup, and restore.
- Managed domain configuration, hosting, DNS, SSL, deployment, and launch.

EDUCATION

Master of Science, Data Engineering and Information Management
NED University of Engineering and Technology | Feb 2024 - Dec 2025

Bachelor of Science, Computer Software Engineering
Hamdard University | Oct 2018 - Feb 2023

COURSE CERTIFICATES

Golang | KodeKloud | Oct 2023
DevOps Beginners to Advanced with Projects - 2023 | Udemy | Sep 2023
